Dear Dan,

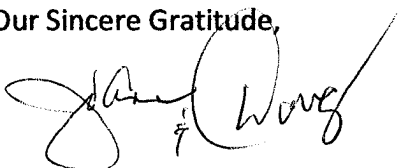

It is with great relief and grateful thanks that we write you today. It's a bit tardy in coming, but the reality of it all is still sinking in. After 5 ½ years of frustration and uncertainty, it's OVER !

Throughout this convoluted ordeal, we learned more about concrete than anyone should ever have to know in a lifetime. Certainly, it has made us all more aware of something we mostly took for granted before this. But in the end (and thankfully we reached it), we were not forced to lose our home, nor be displaced from it, nor are we in fear of it falling in on us. Perhaps most importantly, we are fully aware that while the outcome may not have been quite what any of us might have hoped, we did come away with some compensation for it and it didn't cost us anything monetarily. All things considered, that's a huge relief.

We are certain we could not have maneuvered the legal maze and arrived at this endpoint without you, and so we want you to know how very appreciative we are of your representation of us throughout this long process. While things dragged on, we always marveled at your tenacity on our behalf and we certainly thank you for that. Thanks, too, for coming through with a Certificate of Soundness to aid in any eventual sale of our property. And we also appreciate the advice provided from the Paducah CPA-Attorney regarding tax considerations.

While we don't expect to run into you anytime in the future, you never know when we might cross paths (in a good way). Doug is currently engaged in twice yearly meetings with NC State in Raleigh and I frequently accompany him, as Raleigh is a great place to visit and we have friends there. If we spot you at Big Ed's or Brig's for breakfast, you'll be greeted warmly with respect and appreciation.

With Our Sincere Gratitude,
